INTERSECTION GPS COORDINATES: (WGS 84)
 These coordinates are not precise, but should be close enough to identify intersection locations. They were taken from the base map used to prepare this map.

1. 38° 28.540' N, 113° 40.854' W	19. 38° 12.533' N, 113° 55.640' W
2. 38° 19.602' N, 113° 45.319' W	20. 38° 12.989' N, 113° 50.415' W
3. 38° 12.813' N, 113° 40.211' W	21. 38° 13.112' N, 113° 49.189' W
4. 38° 21.279' N, 113° 49.573' W	22. 38° 12.789' N, 113° 46.675' W
5. 38° 21.279' N, 113° 49.409' W	23. 38° 16.493' N, 113° 48.928' W
6. 38° 20.747' N, 113° 48.139' W	24. 38° 16.509' N, 113° 48.911' W
7. 38° 19.690' N, 113° 52.636' W	25. 38° 16.608' N, 113° 47.935' W
8. 38° 19.804' N, 113° 53.900' W	26. 38° 20.508' N, 113° 47.801' W
9. 38° 20.980' N, 113° 54.402' W	27. 38° 18.810' N, 113° 53.112' W
10. 38° 19.956' N, 113° 55.684' W	28. 38° 20.810' N, 113° 48.362' W
11. 38° 19.168' N, 113° 56.482' W	29. 38° 18.291' N, 113° 55.792' W
12. 38° 18.810' N, 113° 52.445' W	30. 38° 17.848' N, 113° 55.573' W
13. 38° 18.098' N, 113° 51.287' W	31. 38° 17.781' N, 113° 53.075' W
14. 38° 17.142' N, 113° 51.790' W	32. 38° 16.930' N, 113° 53.127' W
15. 38° 17.048' N, 113° 55.811' W	33. 38° 16.798' N, 113° 52.524' W
16. 38° 15.502' N, 113° 55.345' W	34. 38° 15.529' N, 113° 50.824' W
17. 38° 14.819' N, 113° 54.115' W	35. 38° 14.881' N, 113° 50.940' W
18. 38° 14.065' N, 113° 53.785' W	

Indian Peak OHV Trails

HOW TO GET THERE

Location: West Desert

Distance from Salt Lake City: Approximately 285 miles or 5 hours.

Travel Route. South on I-15 to Beaver, west on SR 21 through Milford to Pine Valley, south on graded county road to riding area access points.

RIDE DESCRIPTION

Access Points: There are three recommended access points; Buckhorn Spring Area, Indian Creek and Commissary Creek. These access points do not have improved parking areas or any other facilities.

Total Miles of Recommended Trail: 50.9

Length of Loops: 28.5 to 39.3

Types of Trail: Trails vary from old Jeep trails to graded county roads. Most are wide enough to accommodate full-sized vehicles.

Ride Time: A few hours to all day.

Difficulty: __ X _ Easiest __ X _ More Difficult __ Most Difficult __ Extreme

Elevation: 6,200 to 8,200 feet.

Best season to ride: Spring and fall. Summer temperatures at the lower elevations can be very hot.

Things to see: Great views of Indian Peak, adjacent valleys and mountain ranges, wild horses, elk, deer and many other species of wildlife. Vegetation is grass desert, pinyon and juniper, some stands of ponderosa pine and cottonwood and willows along riparian areas. There are a few remnants of past mining activities.

SERVICES

Water, Food, Lodging and Fuel: Approximately 55 miles to the east in Milford.

Restrooms: None.

Camping: Camping is permitted on BLM administered lands, but is limited to 14 days in any one spot.

CAUTIONS

Signage: Recommended routes shown on this map have not been signed for OHV use. There may be BLM or county signs giving general directions at a few intersections. GPS waypoint information has been provided to aid route finding.

Gates: Leave all gates as you find them. If they are open, leave open. Close if closed.

Livestock: Do not harass. Slow down and let them get out of the way.

Wildlife: Look, but don't disturb.

Historic Structures and Cultural Resources: Man-made structures on public lands more than 50 years of age are protected under the Antiquities Act. It is also unlawful to remove cultural artifacts. View, but do not move or remove any of these objects.

Fire: Check with the BLM office in Cedar City for open fire restrictions. This area can burn nearly anytime of the year. You will be responsible for any damage and cost associated with a wildfire you cause.

Waste: If you packed it in, pack it out. Do not bury trash.

Special equipment needed: This area is extremely remote. Here is no cell phone coverage. Plan to be self-sufficient and prepare for emergencies. Make sure you have plenty of fuel to complete your trip, both in your OHV and in your support vehicle. Bring plenty of water during the hot summer months.

Caution: Never ride alone and always wear your helmet.

TRAVEL RESTRICTIONS

Bureau of Land Management: All recommended routes administered by the Bureau of Land Management (BLM) are currently open to off-highway vehicle (OHV) use under existing land management plans. As new Resource Management Plans and Travel Plans are completed, these routes may or may not remain open or may

have limitations on how and when they may be used. Until new plans and/or closure orders are in place, operation of vehicles on these routes is legal. However, all riders are encouraged to stay on existing roads and trails and the BLM has the following recommendations to minimize impacts associated with use of these routes.

1. Route between intersections 6 and 8 (Meadow Spring and Mackleprang Spring) – Avoid using this area from November 1 to May 1 to protect riparian areas and wet soils.
2. Avoid riding in this area from March 1 to June 1 to protect wild horses.

Contact the Bureau of Land management in Cedar City at **(435) 586-2400** or write to BLM Cedar City Field Office, 176 E. DL Sargent Drive, Cedar city, Utah 84720 for additional information concerning this area and trail conditions.

The publication of this map and text is a unilateral action by the Utah Division of Parks and Recreation under authority of Utah OHV Laws and Rules. The BLM is taking no action at this time to propose or endorse this system of trails nor are they designating any trails for OHV use.

Utah School and Institutional Trust Lands Administration (SITLA): All existing roads and trails under jurisdiction of this agency are open to OHV travel.

Beaver County: All recommended routes under county jurisdiction are currently open to OHV travel.

Private land: The recommended routes cross two parcel of private land on county roads between intersection 7, 8 and 27 and between 19 and 21. Stay on the road and do not remove or disturb any property on adjacent lands.

MAP LIMITATIONS: This map does not display all existing roads and trails open for OHV use in this area. The Utah Division of Parks and Recreation recommends the primary routes to introduce riders to the area and to help them have a great riding/driving experience. Difficulty ratings, mileages, vehicle type recommendations and other information for these routes are noted on the map to assist trip planning. This information is not provided for the other OHV routes shown on the map.

Most of these routes receive little or no maintenance and riders should not assume routes will always be passable. Weather and other natural phenomenon can change conditions. More up-to-date information may be available from the Bureau of Land Management or Beaver County.

This map was prepared using the National Geographic TOPO program. The base map for this program does not include landownership. Because this program provides a relatively inexpensive way to produce maps, the Division has accepted this limitation and hopes users will also. By keeping cost low, more maps can be produced.

DIFFICULTY RATING

Easiest (green) Gravel or dirt surfaces which are relatively flat and wide. Generally wide enough for an ATV to pass a full-sized vehicle. May be dusty but are relatively smooth throughout with no rocks or roots protruding more than three inches above the surface.

More Difficult (blue) Loose gravel, sandy, rocky or slickrock surface. May have short sections which are narrow. Can have blind turns, steep or roller coaster grades, minor drop-offs, dust, ruts and frequent changes in riding surfaces. Occasional obstacles may strike the frame.

This map was prepared by the Utah Division of Parks and Recreation using OHV registration and gas tax funds. It may be viewed online at www.stateparks.utah.gov. This map is subject to change at any time to reflect changing conditions. As a minimum, it will be reviewed annually. Telephone 1-800 OHV RIDE
