**DIFFICULTY RATING**

- **Easiest (solid green circle)** Gravel or dirt surfaces which are relatively flat and wide. Generally wide enough for an ATV to pass a full-sized vehicle. May be dusty but are relatively smooth throughout with no rocks or rocks protruding more than three inches above the surface.

- **More Difficult (solid blue square)** Loose gravel, sandy, or slickrock surface. May have short sections which are narrow. Can have blind turns, steep or roller coaster grades, minor drop-offs, dust, ruts and frequent changes in riding surfaces. Occasional obstacles may strike the frame.

- **Most Difficult (solid black diamond)** Rocky surfaces, sharp turns, switchbacks, steep grades, narrow passages, low overhangs, ledges and huge rocks. Can be slippery and muddy when wet. May have tree stumps, limbs or other debris. Machines with low ground clearance may strike or high center on obstacles. Some riders may be more comfortable using 4-wheel drive machines.

- **Extreme (solid double black diamond)** May be extremely steep and rocky with ledges and drop-offs, narrow switchbacks, boulders and uneven or unbalanced trail surfaces. May be long stretches of loose rock or deep sand on steep grades with extreme side-slopes. Some obstacles will high center most machines. Four-wheel drive is recommended. In some areas it may be necessary to walk machines over or have a helping third hand. These routes require experienced riders with a full array of good riding skills. All users should consider riding abilities and machine capabilities before attempting these routes.

**SIGNING**

- Riding on public lands is a privilege not a right. Careless acts of irresponsible riders can result in closure.

**Forest Service**

- **Location** Caso Canyon/Limekiln Loop

**How to Get There**
