

Coral Pink Sand Dunes State Park

Junior Ranger Activity Guide

Utah State Parks

Things to remember while visiting Coral Pink Sand Dunes State Park:

- ✓ Don't feed the animals.
- ✓ Be kind to all visitors using the dunes.
- ✓ Drink plenty of water, even if you don't feel thirsty.
- ✓ Don't put your hands or feet under rocks - snakes and scorpions live there.
- ✓ Please keep your pet on a leash.
- ✓ Have fun and play in the sand!

Hey Kids!
Do you want to become
a Junior Ranger?
It's Easy!

There are 2 ways to become a Coral Pink Sand Dunes Junior Ranger.

The first way is: if you are between ages 3-7 complete at least 3 activities in this book. If you are between ages 8-12 complete at least 6 activities. It is okay to ask your parents for help. Next, collect a small bag of litter while you are walking around the sand dunes. Litter from your car does not count. Trash bags are available at the Ranger Station. When you have finished the activities and collected the litter, give your book to a ranger so they can sign it.

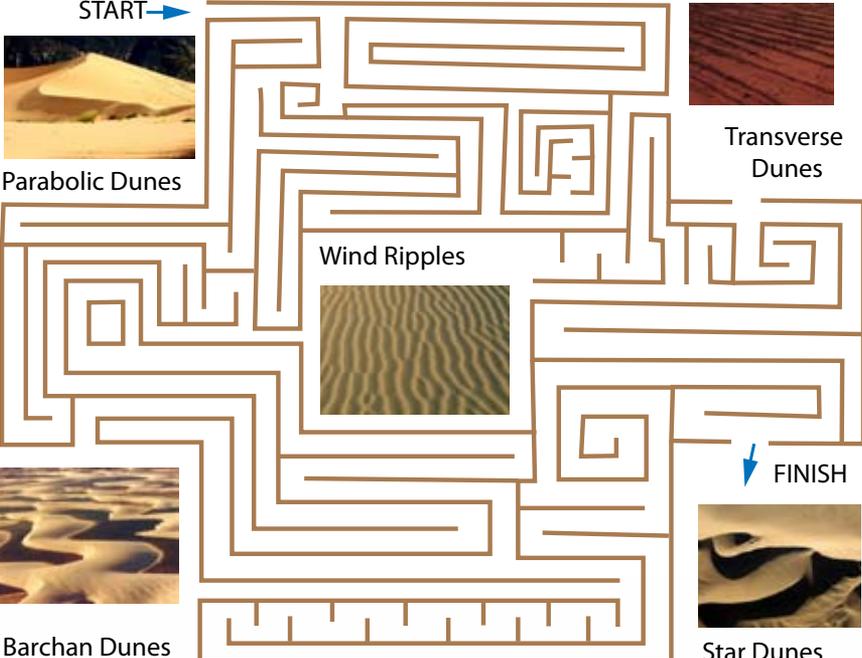

The second way to become a Junior Ranger is to attend a ranger program. Bring this booklet to the program and have the ranger sign it after the program.

The A-MAZE-ing Sand Dunes

The loose sand at Coral Pink Sand Dunes State Park is easily moved by the wind and shaped into different kinds of dunes. See if you can get from the Parabolic Dune to the Star Dune. But you must first pass through the transverse dunes, wind ripples, and barchan dunes.

START →

Parabolic Dunes

Transverse Dunes

Wind Ripples

Barchan Dunes

FINISH ↓

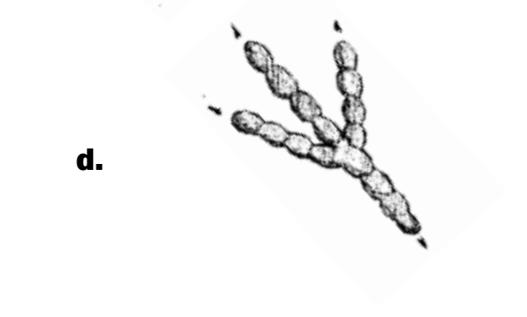

Star Dunes

The image features a central maze with a path that starts at the top left, moves right, then down, then right again, passing through a section labeled 'Wind Ripples'. It then continues down, right, and down again, passing through a section labeled 'Barchan Dunes'. Finally, it moves right and down to reach the 'FINISH' point at the bottom right. Surrounding the maze are four photographs: 'Parabolic Dunes' (top left), 'Transverse Dunes' (top right), 'Wind Ripples' (center), and 'Star Dunes' (bottom right). A blue arrow labeled 'START' points to the beginning of the maze, and another blue arrow labeled 'FINISH' points to the end.

Track Match

Most of the animals at Coral Pink Sand Dunes are nocturnal. This means they are mostly active at night and you may not see them. Their footprints are evidence of their presence. Can you match the tracks with the animal that made it?

WORD PUZZLE

yellow jacket
chipmunk
beetle
scorpion

bat
rattlesnake
toad

DOT - TO - DOT

This small creature can only be found at Coral Pink Sand Dunes State Park. It is an endangered species. Connect the dots to find out what it is, then write the name below.

OHV Safety

OHV riding at Coral Pink Sand Dunes is fun! But remember Safety First! You must follow the rules and wear safety gear while you ride.

The Rules

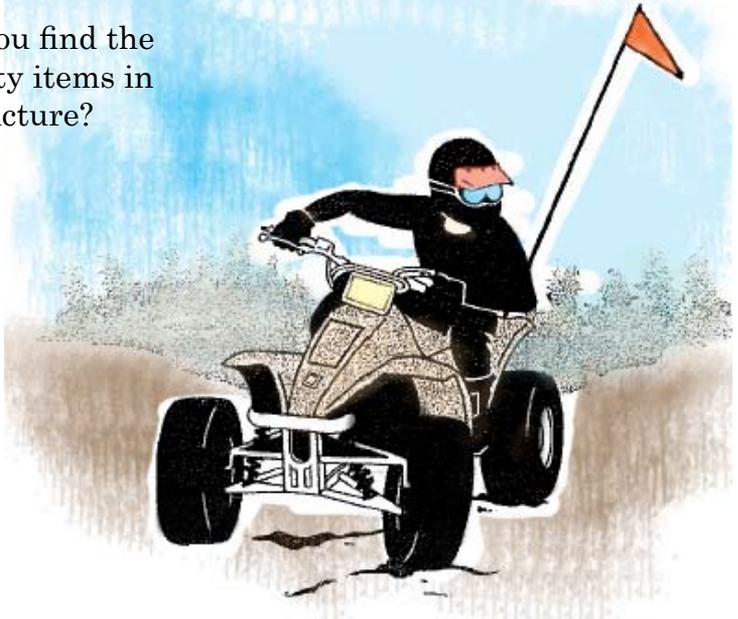

While riding, stay 10 feet away from plants and 100 feet away from people on foot.

All riders must have an orange whip flag on their vehicle.

If you're under 16 years old, you must take a safety class before you ride an OHV. If you're under 8 years old, you'll have to wait until you're older.

Safety Gear

Can you find the 7 safety items in this picture?

- 1 Helmet
- 2 Goggles
- 3 Long Sleeve Shirt
- 4 Lights on the OHV
- 5 Boots
- 6 Whip Flag
- 7 Gloves

Plant Walk

Take a walk on the nature trail that starts at the top of the boardwalk. Compare the plants you see with the ones listed here and check the box when you find a match!

Yucca

American Indians used this plant to make baskets and footwear.

Mormon Tea

The stems and leaves of this plant were used by American Indians and early pioneers as a medicinal drink.

Gambel Oak

These trees protect wildlife, giving animals shelter and food.

Pinion Pine

The cones on this tree contain pine nuts.

Big Sagebrush

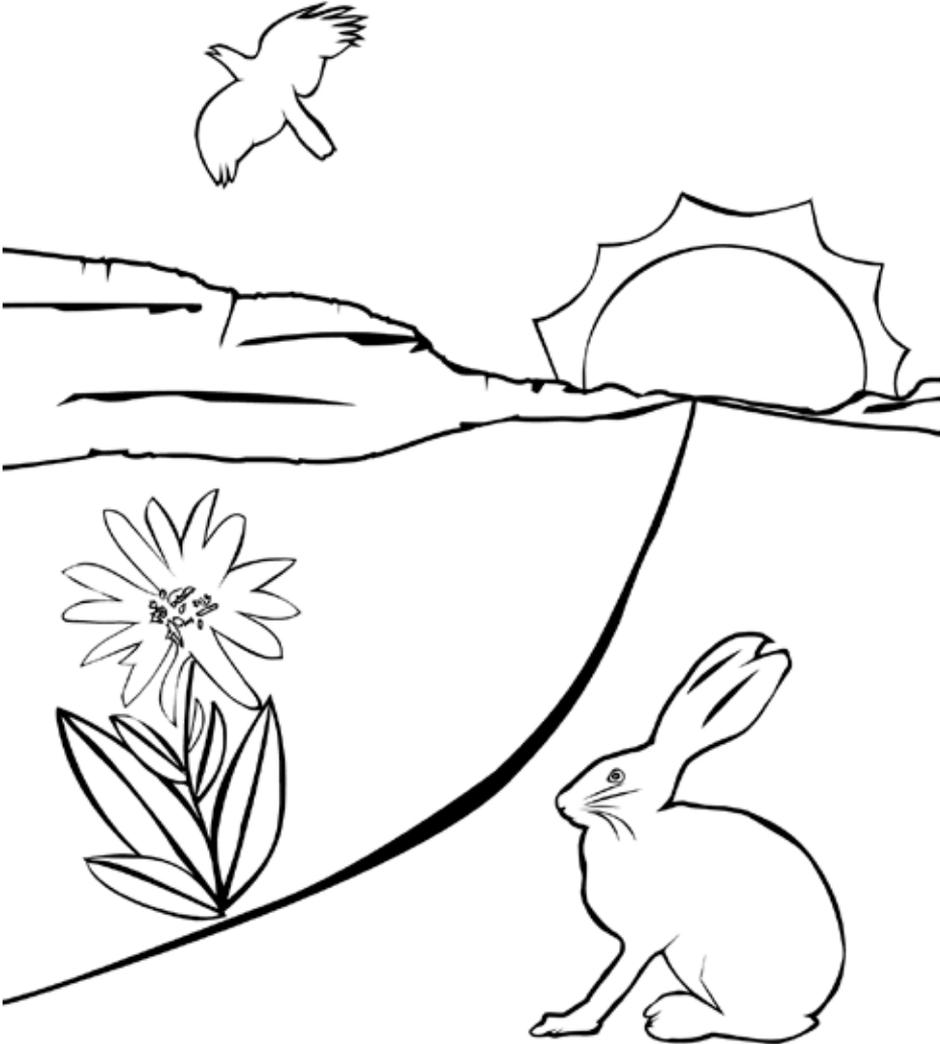

This is a common plant eaten by many different animals.

Mules Ear

This plant emits a strong scent. Generally, animals do not eat this plant.
