

- Dress for changing weather conditions. Layered clothing allows riders to adjust to changing temperatures and conditions.
 - Check the weather and avalanche danger forecasts to avoid potentially dangerous situations.
 - Never harass or chase wildlife.
 - Use headlights and taillights in both daylight and darkness.
 - Please park cars, trailers, campers etc., in designated snowmobile parking lots.
 - Always be on the lookout for trail groomers on Utah's trails. Ride under control at all times.
 - An adult should accompany and supervise operators ages eight through 15 at all times.
- PLEASE OBSERVE THE FOLLOWING RULES WHEN OPERATING SNOWMOBILES ON PUBLIC LANDS:
- No one under eight years of age may operate a snowmobile on public roads, trails, or lands.
 - Utah resident operators ages eight through 15 must possess an OHV education certificate for snowmobile use in order to legally operate a snowmobile on public property.
 - Resident operators 16 years of age or older must possess a valid driver's license or an OHV education certificate.
 - For more information on obtaining an OHV education certificate or complete information on OHV laws and rules, please contact the Division of Utah State Parks and Recreation at 1-800-OHV-RIDE.

- SAFETY TIPS**
- Let someone know where you're going and when you expect to be back. Never ride alone.
 - Be familiar with your machine. Know its fuel capacity and basic maintenance procedures.
 - Carry extra spark plugs, extra drive belt, a tool kit, and a survival kit.
 - Watch your fuel supply. Ride out only to a point where your fuel gauge reads one-half; then follow your tracks back to the trailhead.
 - Ride on the right side of the trail, giving the uphill bound machine the right of way. Be careful not to follow other snowmobiles too closely.

SKYLINE SOUTH COMPLEX
A. Joe's Valley 18.4 Miles
B. Middle Mountain 7.8 Miles

SKYLINE SOUTH MIDDLE MOUNTAIN TRAIL (B)

Following the contours of the western slope of Middle Mountain, the many twists and turns of the Middle Mountain Trail are in sharp contrast with the relatively straight lines of the Joe's Valley Trail. This tree-lined trail is generally protected from severe weather and allows for some outstanding scenic views and vistas. This stretch is ideal for the trail rider, as off-trail play opportunities are limited by dense vegetation. During wet winters when ample snow falls, the Middle Mountain Trail and Joe's Valley Trail are connected at both ends, allowing for a tremendous variety of riding opportunities.

SKYLINE SOUTH SNOWMOBILE COMPLEX

The plateau above Ephraim, Manti, and Mayfield (Twelvemile) canyons provides excellent snowmobiling from November to April and connects with Joe's Valley and Ferron areas. This complex is in close proximity to the popular Skyline Drive snowmobile trail (located to the north) and provides access to open riding opportunities rising above 10,000 feet.

This central Utah complex is located away from the major population centers of the Wasatch Front and offers generally uncrowded riding conditions. The varied terrain makes this a perfect destination whether you want to follow a groomed trail or glide through open fields of fresh powder.

Below are some specific items of interest about the trails included in the Skyline South Snowmobile Complex. Check with local U.S. Forest Service offices for guides and travel maps of ungroomed trails and other areas open to snowmobile use.

JOE'S VALLEY TRAIL (A)

This wide, flat 18.4-mile trail is an excellent choice for a family snowmobile outing. With varied terrain throughout the trail, everyone can find something to their liking. The trail follows the Miller Flat Road between Joe's Valley and Huntington reservoirs along the contours of the eastern slope of Middle Mountain. The canyon location of the trail provides for few surprises, yet allows ample opportunity for all to try their skills at the moderate hill climbing found along the trail. Wintering elk can often be observed in the trees and on the hillside near the midpoint of the trail.
