

Millsite State Park

Utah State Parks

History

Millsite Reservoir, completed in 1970 as part of the Ferron Watershed Project, serves as a multipurpose water containment facility. The project was a collaborative effort involving multiple agencies. The reservoir's name originates from an old dam that once stood at the site, built to supply water to a flour mill.

Things To Do

Camp in the serene campground, where you can enjoy boating or fishing on the tranquil blue waters of Millsite Reservoir. Play a round of golf at a nearby course, or bring your off-highway vehicles and mountain bikes to explore the miles of scenic trails in Ferron Canyon.

Amenities

Camping sites A, B, and, 1-10 have electric and water hookups. Sites 11-20 have electric-only hookups.

Reservations

Camping reservations can be made through Reserve America. Reservations cannot be made through the State Park office phone line. You can make reservations 4 months in advance, but not within 48 hours of your arrival. Walk-in fees can be paid by fee envelope at the entrance station or by using Park Pass online (note that cell phone reception is limited in the park).
