Planning

When planning an event in the Heber Valley, be sure to apply for the correct permit (city, county or state park). Multiple permits may be required. If needed, remember to obtain your business license 90-120 days before your event along with any necessary insurance and paperwork.

Major UDOT highways and road closures are difficult to coordinate for special events. Please check well in advance.

The timing of your event is also very important. Make sure to check what other events are taking place during the dates of your special event.
