

Antelope Island State Park
Spider Fest Scavenger Hunt

Located around the visitor center, you will find several panels with loads of information about spiders. Locate those to answer the following questions:

1. Orb Weaver Spiders: What popular children's cartoon features an orb weaver spider? _____
2. Cob Web Spiders: What is the only spider of medical significance to humans found in Utah? _____
3. Funnel Weaver Spider: Name 2 types of insects that are prey for funnel weaver spiders. _____ and _____.
Look around the brush and see if you can find any funnel webs.
4. Mimicry and Camouflaging Spiders: Why do you think camouflaging spiders are attracted to flowers? _____
5. Jumping and Stalking Spiders: Jumping spiders specialize in catching _____ insects.
6. Head inside the visitor center, and look for the large printed poem. Add your own drawings, thoughts or short poems about spiders.
7. Now venture out and visit the marina, and then up to Buffalo Point.
What differences do you see in:
Spider abundance: _____
Web/spider size: _____
Type of spiders seen: _____

Return this completed scavenger hunt to the visitor center for a
