

Antelope Island State Park Annual Bison Roundup

All backcountry trails will be closed Saturday, October 29 and possibly Sunday, October 30.

Do not stop in the lane of traffic. Pull over to the shoulder or park in designated parking areas.

Do not leave vehicles unattended.

Drone use is prohibited without a permit.

Annual Bison Roundup - Oct 29

Experience the annual bison roundup beginning at 9 a.m. View one of the nation's largest and oldest public herds as horseback riders move the bison from the south end of the island to the bison corrals located at the park's north end. Riders and bison can be seen from the eastside road as they push the bison north. Enjoy education opportunities, food and more at the White Rock Bay Viewing Expo, where bison can be seen as they are herded into the corrals.

Working of the Bison – November 1-3

Visit the bison corrals between 8 a.m. and 5 p.m. and observe as bison are weighed, blood-tested, inoculated, and scanned. Guided tours will be given throughout the day.

Bison Auction – November 9

To keep the bison population at a healthy carrying capacity for the island, excess bison will be sold during a public auction. The auction will take place online at <https://qas.hibid.com/>

For additional information, visit stateparks.utah.gov or call (801) 773-2941.
